The Collectorate at Vadodara has been at the forefront of applying technology and enabling smarter, faster, informed decisions for the benefit of citizens of Vadodara District. The citizens have greatly benefitted from the One-day Governance initiative at the Nagrik Sewa Kendra. The Vadodara Collectorate has completed 2 phases of implementation and received e-Governance award at the National level.

We are now embarking on the Third Phase of e-Governance. Mr. Mandar Mehta, CEO Data Point Computer Services and his team has worked out an Action Plan for the next two Phases of e-Governance which include comprehensive workflow & creation of portals. We are happy with the work carried out by M/S Data Point. Their people have the necessary skills, know-how, understanding of governmental processes, culture & behavior and are sensitive to public interest.
