TO WHOM IT MAY CONCERN

Mandar Vijayker Nerta is a known person in the fields of Computer Software, Engineering and Finance in the city of Vadodra. He played a fundamental role in spreading awareness during the early years of computerisation efforts in the city. Many companies and organisations have utilised his services. On occasions, we have taken his help and guidance for certain aspects relating to computerisation. His suggestions were found to be useful.

I am happy to recommend him to those who wish to utilise his services.
